EDUCATION

Dr. B.R. Ambedkar School of Specialized Excellence (SOSE), Sector-6, Dwarka New Delhi, Delhi
Class 12 (PCM) – Delhi Board of School Education (DBSE) | Percentage: 88.2% 2025 – 2026

Dr. B.R. Ambedkar School of Specialized Excellence (SOSE), Sector-6, Dwarka New Delhi, Delhi
Class 10 – Delhi Board of School Education (DBSE) | Percentage: 96.4% 2023 – 2024

TECHNICAL SKILLS

Programming Languages: Python, HTML

Hardware & Embedded: Arduino UNO/Mega, BLDC & Servo Motors, LDR, HC-SR04, IoT, Solar Controllers

Software & Tools: OpenCV, MediaPipe, Tinkercad (3D CAD), Microsoft Excel, Canva

Core Competencies: Computer Vision, Artificial Intelligence, Robotics, Cyber Security, Rapid Prototyping

TECHNICAL PROJECTS

Telegram Status Tracker | *Python, FastAPI, Telethon, SQLite, TailwindCSS, AI* 2026

- Engineered an asynchronous, event-driven background service and web dashboard to monitor and track Telegram user online/offline statuses in real-time.
- Developed a cloud-native backend utilizing FastAPI and Telethon for non-blocking API polling, securely storing persistent event history in an SQLite database.
- Integrated the official Telegram Bot API to dispatch instant, automated push notifications directly to personal chats upon structural state transitions.

Iron Hand V2.0 | *Python, OpenCV, MediaPipe, Windows COM* 2026

- Developed an advanced computer vision application to control system media playback and master volume utilizing real-time hand gestures.
- Mapped complex human hand landmarks to dynamic native Windows audio interfaces, achieving high frame-rate processing and minimal latency.

Combat Bot “Urumi” (Delhi Robotics League) | *Arduino, CAD, Hardware Design* 2024

- Spearheaded mechanical design and electronics for a 7-member team to construct a dual-mode combat robot.
- Engineered an 'Attacker' mode utilizing anti-clockwise BLDC motors to fire pre-loaded projectiles, and a 'Defender' mode to physically block arena scoring holes.
- Integrated omni-directional wheels for 360-degree maneuverability, completing the design via Tinkercad.

CERTIFICATIONS & PROGRAMS

Google AI Essentials & Crash Course on Python Coursera
Earned specialized credentials from Google focusing on AI integration and Python logic. 2024

Vanderbilt University OpenAI GPTs: Creating Custom AI Assistants Coursera
Studied the architecture and prompt engineering required for custom AI deployment. 2024

Electronic Systems (8-Week Certification) CODE IIT Madras
Comprehensive training in foundational electronics and embedded systems. 2024

CS² Summer Outreach Camp IISER Bhopal
Selected for a highly competitive 1-week intensive on-campus research exposure. 2025

Overview of Remote Sensing Technology ISRO (Shiksha Gagan)
Studied satellite imaging and geographical data processing methodologies. 2025

HONORS & AWARDS

Student of the Year (2026): Awarded by Dr. B.R. Ambedkar SOSE for exemplary academics and leadership.

Silver Honour (2025): Achieved global recognition in the International Astronomy and Astrophysics Competition.

1st Position (2025): Zonal Skill Exhibition; presented an innovative project on Green Skills for a Sustainable Future.

Bhashadoot Samman: Honored by the Indira Gandhi National Centre for the Arts (Ministry of Culture, Govt. of India).

LEADERSHIP & EXTRACURRICULARS

Deputy Head Boy (& Former House Captain): Represented and led a student body of ~600 students; previously managed a house of ~100 students, driving discipline and event coordination.

Editorial & Communications: Served as the Annual School Magazine Editor and hosted the School Annual Day for four consecutive years, showcasing strong public speaking and content curation skills.
